Cambodia

Cambodia targets 1 million MT of rice exports in 2026

Cambodia's public and private sector leaders have pledged to strengthen the rice value chain by stabilising paddy rice prices and improving access to finance to support the country's 1-MT milled rice export target for 2026. The state-owned Agriculture and Rural Development Bank (ARDB) has prepared a 200 million USD revolving credit facility to help rice mills purchase and stockpile rice paddy during the harvest season, supporting timely procurement and market price stability. Cambodia exported 792,212 MT of milled rice worth 464 million USD in the first eight months of 2026, with shipments reaching 66 markets through 61 companies.

Indonesia

Indonesia extends rice aid through December 2026

Indonesia will extend its rice food aid programme through December 2026, with the government approving an additional 1 million tonnes of rice for distribution during October-December. The additional allocation follows the disbursement of food aid for the July-September 2026 period, under which each

Philippines

Philippines seeks long-term rice deal with Vietnam amid Middle East conflict

According to the Philippine President, the government is working to ensure sufficient food supplies and contain food prices as the Middle East conflict drives oil and commodity price volatility. Currently, the Philippines is pursuing a long-term rice supply arrangement with Vietnam, with talks covering import volumes, pricing, and a possible long-term contract. Discussions remain ongoing. The government is also assisting vulnerable households and coordinating with local governments to cushion the impact of rising global energy and commodity prices.
